COMMITMENT TO EXCELLENCE

MISSION STATEMENT

We deliver quality on every project, backed by our commitment to safety, service and reliability. It's The Boxley Way.

VISION

We will be the industry leader in all facets of our business with the diverse talent to sustain it.

COMPANY CORE BELIEFS

At Boxley, we commit to:

- Work safely.
- Hire, train, retain and promote the best people.
- Involve our employees in the decision-making process.
- Maintain an inclusive and supportive workplace.
- Respect differing opinions and encourage healthy debate.
- Provide equitable opportunities for personal growth and professional development.
- Reward outstanding contributions throughout the organization.
- Be honest.
- Build long-term relationships.
- Deliver quality from the ground up.
- Be active participants in improving the quality of life in our communities.
- Be responsible stewards of the environment.
- Commit to be a little better at what we do each and every day.
- Earn profits to support our corporate growth and beliefs.

OUR COMMITMENT TO DIVERSITY, EQUITY & INCLUSION

Boxley's culture will be inclusive where all employees are valued for their diversity of abilities, backgrounds and perspectives with equitable opportunities for growth and advancement. We will recruit, retain, foster and reward diverse talent that enables Boxley to deliver the highest quality, innovative products and services that make us an industry leader.

BOXLEY MATERIALS COMPANY

Boxley proudly produces high-quality aggregate, asphalt, block, brick, hardscapes, and slate products. Our products are essential in the construction of homes, schools, hospitals, buildings, and landscaping, as well as the maintenance and construction of roads and bridges throughout central and western Virginia.

AGGREGATE

Contractors and road builders count on Boxley aggregate as the foundation for project success. Our continued investment in manufacturing equipment and technology enables us to produce a wide variety of crushed stone, including granite, limestone, aplite, and greenstone. Simply put, our crushed stone is cleaner and more consistently graded than what you'll find elsewhere.

BASE STONE

Classified by VDOT specifications #25, #26, 21A, and 21B. These products are used for stabilization beneath asphalt and concrete paving for parking lots and highways. Base stone can also be treated with cement.

OTHER MATERIAL

#1, #2, #3, #357, and #30 surge. Used for logging and farm roads as well as construction entrances where heavy truck traffic is needed in wetter-than-normal conditions.

AGRICULTURAL LIME

Used by farmers and homeowners to raise the PH level in soils to promote healthy fields and lawns.

RIP-RAP

Large rocks used along shorelines of rivers and lakes to help control erosion as well as drainage structures and sediment control channels/ditches. Rip-Rap is also used in landscaping. Classified by VDOT as Class A-1 (25-75 lbs), Class I (50-149 lbs), Class II (150-499 lbs) and Class III (500-1500 lbs).

FINE AGGREGATE/MANUFACTURED SAND

Consists of #10, #36 Grade A sand, #9, and B & C Slurry. The #10 and #36 Grade A sand are used in asphalt, concrete mixes, and applications that require sand. The #9 and B&C slurry materials are used for ice control to ensure better traction during inclement weather, surface treatment, and slurry applications on highways.

COARSE AGGREGATE

Consists of #5, #56, #57, #68, #78, and #8. These products are typically used in asphalt and concrete mixes, but can also be used for driveways and septic systems.

ASPHALT

High-quality asphalt mix designs, expert paving services, and pavement maintenance make Boxley the go-to resource for asphalt projects in the central and western Virginia region. All asphalt paving mixes are designed, tested, and monitored in our laboratories to ensure the quality of material produced for your job.

MIX DESIGN

Our VDOT certified technicians are proficient in Superpave and Marshall Mix design methods for your VDOT, municipal, federal highway, airport, parking lot, or other custom project specifications.

SLURRY SEAL & MICROSURFACING

Slurry Seal is great for resurfacing parking lots, roadways, highways, subdivisions, and more. Installation available in North Carolina and Virginia.

PAVING

Boxley has the knowledge and experience to provide the expertise you need on a variety of asphalt paving projects.

BLOCK, BRICK & HARDSCAPES

Our vast selection of block, brick and hardscapes products provide quality, strength, and style for any residential or commercial building project. Our product expertise, outstanding service, and quick delivery make Boxley the go-to resource.

CONCRETE MASONRY UNITS

Boxley is the largest supplier and manufacturer of block in western and central Virginia. With gray, architectural, and fire-rated block available in an array of shapes and sizes, builders find what they need even when facing the most complex building projects.

BRICK

From the standard to the hard-to-find, Boxley is the go-to resource for commercial and residential brick.

HARDSCAPES

Boxley provides a diverse selection of quality products to create a welcoming, outdoor living space.

BUCKINGHAM® EST. SLATE 1867

Buckingham® Slate, a Boxley Materials Company product, is revered for its beauty as well as its outstanding mechanical strength and resilience to the toughest environments. With its rich blue, black and gray tones, this iconic slate is a product of distinction in the finest landscape designs. Proudly quarried and manufactured in Buckingham County, Buckingham® Slate products are all natural and non-toxic.

BOXLEY 360

Boxley 360 is our employee-led corporate responsibility program that underscores Boxley's ongoing commitment to be an outstanding employer, business partner, and corporate citizen. It is designed to engage employees in decision-making situations and build pride in how the company operates. Boxley 360 focuses on our five pillars of Corporate Responsibility: employee communication, employee health/wellness, community outreach, environmental sustainability, and diversity, equity and inclusion.

ENVIRONMENTAL STEWARDSHIP

We're proud of the national recognition Boxley has earned in making our operations and products more environmentally sustainable. Boxley has prioritized pursuing environmental certification programs that demonstrate high standards of operational excellence and we offer a wide array of sustainable and LEED-eligible products. We report on our progress with these initiatives in our annual *Boxley 360: Corporate Responsibility Report*. Learn more at boxley.com.

Greener.
Smarter.
Better.®

Boxley's world class safety program is the cornerstone of The Boxley Way. Reinforced by the company's leadership team, our safety culture underpins every facet of our operations from driver safety to safety-first policies and procedures.

WORLD-CLASS SAFETY MANAGEMENT

Our successful program incorporates the 5 characteristics of a world class safety management system established by the National Safety Council:

- Leadership
- Performance Measurement
- Integrated Systems Approach
- Alignment to Core Organizational Initiatives
- Corporate Citizenship and Off-the-Job Employee Safety
